**General Information**

In all cases of doubt, or when symptoms persist, seek medical advice. Never give fluids or induce vomiting if patient is unconscious. Keep person warm and calm.

**Inhalation**

Fresh air. Contact a doctor if the complaints persist.

**Skin contact**

Wash with soap and water and rinse the skin thoroughly. Possible caustic injury should be treated by a doctor.

**Eye contact**

Important! Rinse immediately with water for at least 15 minutes. Hold eyelids apart. Remove contact lenses, if present and easy to do. Go to hospital. If possible, continue to rinse during transport.

**Ingestion**

Rinse mouth with water and drink several glasses of water or milk. Do not provoke vomiting unless directed by medical personnel. Get medical attention.

**4.2 Most important symptoms and effects, both acute and delayed:**

**Inhalation:** The vapours may be irritating to the respiratory system.

**Skin contact:** May cause chemical burns with blisters, sores or burns which may be difficult to heal.

**Eye contact:** Give severe pain and irritation. May severely injure the eyes.

**Ingestion:** Corrosive in the mouth, throat and gastrointestinal tract. Symptoms burning pain, vomiting and stomach pains. Vomiting may aggravate the injury.
