

Pica Easy Off Wipes

Marker Pen Remover

Generally:

Pica Easy Off is a marker pen remover specifically designed to remove marker pen graffiti without risking damage to the surface or the user.

Use:

Use Pica Easy Off on most types of non-porous surfaces such as metal surfaces (including aluminium), painted surfaces, polycarbon, plastic and glass.

Directions for use:

Normal removal

- Wet Pica Easy Off Wipes on graffiti.
- Let it work for 10-15 seconds. Then work the graffiti in circular motion.
- Wipe away graffiti with a clean cloth.

Difficult removal

- Wet Pica Easy Off on graffiti.
 - Wait a few minutes.
 - “Work” the surface using circular motion with a Scotch Brite. Be careful not to damage surface with the Scotch Brite.
 - Wipe away graffiti with a clean cloth.
 - Repeat if necessary. Make sure Scotch Brite is moist during removal.
- After removal, always neutralise surface with a damp cloth.

Solution to be used:

Concentrate (pH 7).

Estimated amount to be used:

0,1-0,2 liter/m².
