

Pica HP16

Acetous ghost remover

Generally:

Pica HP 16 is a HD ghost remover for really tough graffiti residue. Despite being "tough" on graffiti Pica HP 16 is a very good environmentally friendly alternative.

Use:

Use Pica HP 16 with great care on marble, limestone and other lime/calcium based stone/surfaces. Avoid using the product on aluminium.

Directions for use:

- Coat the graffiti with Pica HP 16.
- Let the product work for 1-5 minutes.
- Rinse thoroughly.
- If needed repeat treatment.

NB on really porous surfaces it is recommended to first soak the surface in water before applying Pica HP 16.

NB on lime based render it is recommended to always start with a pH neutral product and only use Pica HP 16 as a shadow remover.

Solution to be used:

Concentrate (pH 1).

Estimated amount to be used:

0,1-0,2 litres/m².

Personal protective measures:

- Wear protective gloves.
- Wear safety goggles.

Labelling:

Signal Word: Danger
